Cuyahoga Valley Career Center
Tech Prep Certificate in Digital Design | June 2009
National Technical Honors Society

EMPLOYMENT

Spacecraft Inc.
Product Developer - October 2015 to Now
Develop the UI of the web app. Work within the established HTML, CSS, and JS conventions of a large codebase, using git for version control. Push fixes for bugs. Identify, spec out, and add new features to rendered sites, then create the UI that enables customers to access those features.

Spacecraft Inc.
Front End Developer – April 2015 to October 2015
Leverage the Spacecraft platform to fulfill client requests as part of the Creative Team. Create custom one-off features for requests that are outside of the platform's capabilities and create easily readable, reusable code for team members to implement.

Volusion
Front End Developer - June 2013 to April 2015
Develop website templates and client websites using HTML, CSS, and JavaScript. Work within Volusion software. Respond to client tickets and resolve issues. Update Github repos. Assist in training of new employees.

PBS Kids
Design Intern - Summer 2012
Front-End design and development for PBS Kids webpages. Designing graphics for webpages and promotion of shows. Play testing games in alpha and beta stages to ensure proper user experience.
